## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-14, and 23 - 25 are drawn to evaluation of a gemstone by the fire of the gemstone, classified in class 356, subclass 30.
  - II. Claims 15-22 are drawn to providing a cut grade for a gemstone based on a list of proportion grades, classified in class 434, subclass 386.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions providing a cut grade for a gemstone relating to fire using a specific mathematical expression and providing a cut grade for a gemstone based on a determining the cut grade of a gemstone by comparing the cut proportions of the gemstone with a list of proportion grades are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case there is a clear distinction between determining the fire of a gemstone and determining the cut grade of a gemstone by comparing the cut proportions of the gemstone with a list of proportion grades.
